On behalf of the Fallon Bull Sale Committee and Nevada Cattlemen’s Association I would like to welcome everyone to the 51st Annual Fallon Bull Sale. We want to pay tribute and thanks to Chris Gansberg who has decided to step down as Chairman of the Committee after more than 25 years at the helm. Chris has strived through the years to improve the quality of bulls offered to our buyers at the Fallon Bull Sale and it is our goal to continue Chris’s vision for the sale.

The Committee would like to express their sincere appreciation to our loyal consignors and buyers who have supported our past sales and we look forward to seeing you again this year with quality range ready bulls. This sale is the major fund raiser for the Nevada Cattlemen’s Association which tackles the issues affecting the beef industry in Nevada and your continued support is greatly appreciated.

The Fallon All Breeds Bull Sale Invitational Stock Dog Trial will be held on the 17th with a new change in store this year with three dogs shown at the trial up for auction at the beginning of the Bull Sale on the 18th. All proceeds from the Stock Dog Trial are donated to benefit families in need of help in the livestock industry. Then, please join us for an enjoyable evening at the Fallon Bull Sale Dinner Dance on the 17th hosted by the Churchill County Cowbelles where you can visit with consignors and the bulls you are interested in.

Since it takes a team effort to put this sale on every year, I would like to thank the following for their contributions. Monte Bruck and the Fallon Livestock Exchange for hosting the sale, the Churchill County Cowbelles for hosting the dinner dance, the Southern Nevada Water Authority for the generous donation of the raffle calf for the scholarship fund, the Churchill County FFA for sale support and organizing the calf raffle, Hoof Beat Gates and Panels for their donation of panels, and Pinenut Livestock Supply for award plaques and ear tags. Finally, I want to thank the Nevada Cattlemen’s Association staff, bull sale sifters and graders and the Fallon Bull Sale Committee for all the work to make this sale a success.

Looking forward to seeing you on the 18th of February!

Best regards,

Tom Armstrong

2. EID/RFID ear tag
3. Breed Registration tattoo along with a copy of the Breed Registration certificate

OFFICIAL INTERSTATE HEALTH CERTIFICATE:
Each consignor must submit a “blanket” official interstate health certificate signed by a licensed veterinarian listing each individual animal in the consignment. (One official health certificate may cover all animals for an individual consignor.)

REQUIRED INJECTIONS

1. CLOSTRIDIAL: 8-Way vaccine within 60 days of the sale.
2. RESPIRATORY VACCINE: This vaccine must include Infectious Bovine Rhinotracheitis (IBR), Bovine Viral Diarrhea (BVD Type I and Type II), Parainfluenza (PI3), Bovine Respiratory Syncytial Virus (BRSV) within 60 days of the sale.

REQUIRED TESTS

1. TRICHOMONIASIS: All bulls must have a negative Trichomoniasis test within 30 days of the sale. A COPY OF THE OFFICIAL LABORATORY REPORT OF THE TRICHOMONIASIS TESTED BULLS MUST BE SUBMITTED WITH THE HEALTH FORM. Pooled Trichomoniasis samples will not be accepted for entry in Nevada.
2. BVD TEST: All bulls must have a negative test for persistent BVD infection by either ear-notch method or blood test method. This test can be done at any time and is good for the lifetime of the animal.
3. SEMEN TESTING: All bulls must be semen tested by a licensed veterinarian within 60 days prior to the sale. Test results must be turned in upon arrival along with other health documents. For bulls to be classified as Satisfactory Potential Breeders, they must pass the physical examination and equal or exceed the minimum thresholds in each of the following three categories:

<table>
<thead>
<tr>
<th>Scrotal Circumference</th>
<th>Morphology</th>
<th>Motility</th>
</tr>
</thead>
<tbody>
<tr>

- **Unsatisfactory:** Bulls which are below one or more thresholds. Also, bulls which show genetic faults or irrevocable physical problems (including infectious disease) which would compromise breeding or fertility.

4. BRUCELLOSIS: Brucellosis testing is not required. However, if a bull is purchased by someone from a state requiring brucellosis testing for entry and the bull does not have a certified brucellosis test, that bull will be subjected to the one day brucellosis test procedure in Fallon, and all expenses will be the buyer’s responsibility.

5. TB: TB testing is not required. However, if a bull is purchased by someone from a state requiring TB testing for entry and the bull does not have a certified TB test, that bull will be subjected to the three day TB test procedure in Fallon, and all expenses will be the buyer’s responsibility. 6. GENETIC DISORDERS: It is the responsibility of the consignor to complete and include DNA testing for breed associations’ recognized genetic defects with submission of entries. All bulls that are potential carriers of breed associations’ recognized genetic defects must be tested. Carriers are not eligible for the sale. Results of the tests must be submitted by December 1, 2016.
